YOUR PMO LEARNING JOURNEY

SUPRIYA ARORA

Supriya is an Enterprise Delivery and Transformation Executive with over 25 years of experience leading enterprise portfolios exceeding \$400M. She has built PMOs from

the ground up, rescued programmes in crisis, and advised boards and C-suites across utilities, financial services, mining, and beyond. She is passionate about developing capability in project controls, planning, and stakeholder engagement and brings that straight-talking, practical energy into every room she walks into.

VIKKI KAPOOR

An experiences PMO Professional with over 27 years delivering complex projects and programs across telecommunication, IT and Consulting and Systems Integration sectors.

Vikki specialises in project controls, governance, compliance, and performance reporting, bringing real world insights into the classroom. His practical approach ensures learners develop job-ready skills aligned to current industry standards and expectations.

WHY THIS COURSE?

This course provides a practical introduction to Project Management Office (PMOs) and their critical role in successful project delivery. You will gain insights into governance, project controls, and performance management frameworks used across industry. Designed for aspiring and current professionals, this session builds foundational PMO capability, helping you understand how to support projects effectively and progress your career.

SECURE YOUR PLACE TODAY!

Take the first step toward advancing your career in PMO and project controls.
